ITINERARY B2 - FRIDAY TO MONDAY

4D / 3N - DAY BY DAY PROGRAM

DAY 1: FRIDAY

AM: ARRIVAL TO BALTRA + PM: SANTA FE

🚩 **1 Dive Santa Fé** is one of the most entertaining destinations for excursions in the Galapagos Islands. It has two trail choices for visitors, one of which takes you to the tallest Opuntia cactus in the Galapagos, while the other trail takes you into the highlands where land iguanas can be found. After a long walk, the opportunity to swim in calm waters or snorkel with playful sea lions will be pretty tempting. (B, L, D)

DAY 2: SATURDAY

AM: FLOREANA ISLAND-CORMORANT POINT/CHAMPION + PM BARONESA VIEWPOINT/POST OFFICE BAY

🚩 **1 or 2 Dives** Cormorant Point/Champion: This site hosts a large flamingo lagoon where other birds such as common stilts and white-cheeked pintails can also be seen. The beaches on this island are distinct: The "Green Beach" is named so due to its green color, which comes from a high percentage of olivine crystals in the sand, and the "Four Sand Beach" is composed of white coral.

Post Office Bay: In the 18th century, whalers passing through the islands placed a wooden barrel on Floreana Island for use as an unofficial mail box. The tradition continues today as visitors leave addressed postcards in the barrel and sort through left mail to deliver at home. (B, L, D)

DAY 3: SUNDAY

AM: SEA LIONS ISLAND/KICKER ROCK + PM TIJERETAS HILL/ THE SEA LION COLONIES

🚩 **1 Dive Kicker Rock:** The name of this island means "Sea Lion Island". This appropriately named island is ripe with noisy, frolicking, jolly sea lions who will welcome you to their home with open, well, fins. This island also offers great snorkeling opportunities as well as the chance to see blue-footed and Nazca boobies.

Tijeretas Hill: Also called "Frigate Bird Hill", this is one of the few islands sites where both the great and magnificent frigate birds can be found roosting side by side. (B, L, D)

DAY 4: MONDAY

AM: SANTA CRUZ: CARRION POINT/DAPHNE MAJOR + TRANSFER OUT

Carrion Point. creates a sheltered lagoon with beautiful, turquoise water. During this visit, you can snorkel and see a variety of fish, stingrays and perhaps the harmless white-tip reef sharks. The point is on the north coast of Santa Cruz Island at the entrance of Channel of Itabaca.

Daphne Major. is an island just north of Santa Cruz Island in the archipelago Colon, commonly known as the Galápagos Islands. It consists of a tuff crater, devoid of trees, whose rim rises 120 meters above the sea.

After this visit transfer to Baltra Island to fly back to mainland Ecuador.

Notice: According to the Galapagos National Park, itineraries are subject to change.
